

MARIIA CHERKASHYNA

FRONT-END DEVELOPER

SUMMARY

Front-End Developer with 2 years of hands-on experience, specializing in responsive landing pages and front-end interfaces using TypeScript, React, Next.js, and Angular. Known for writing clean, maintainable code and collaborating effectively in fast-paced, remote environments. Passionate about creating modern UIs and continuously learning new tools and best practices to deliver high-quality user experiences.

PROJECT EXPERIENCE

Cinemanialink [HTML, CSS, JS, Parcel, REST API]

A responsive website featuring the latest popular movies of the day, week, and upcoming month. The design includes a mobile-friendly menu, dynamic daily movie ratings, a diverse film library, and modal windows for trailers and detailed information.

Role: Developer.

MONEY GUARDlink [HTML, CSS, JS, React, Redux-toolkit, REST API]

Instrument for analyzing your financial state, optimizing finances, and effectively managing them.

Role: Scrum-master, developer.

Water Trackerlink [HTML, CSS, JS, React, Redux-toolkit, REST API, Node.js]

An application where you can monitor the amount of water consumed.

Role: Scrum-master, developer.

More projects available at my [portfolio page](#).

WORK EXPERIENCE

Front-End Developer

LeoSource | Feb 2024 - Jan 2026

- Developed and maintained user interfaces using TypeScript, React, Next.js, Angular, Plasm, and UI libraries.
- Contributed to development of browser extensions, including implementing UI, business logic, and integrating extension features into existing workflows.
- Integrated client-side applications with REST APIs, handling different request states and adapting UI logic to backend changes.
- Worked with AI-based functionalities on the frontend, integrating third-party AI services and displaying AI-generated content in user interfaces.
- Implemented new features, fixed bugs, and performed refactoring in existing React and Angular codebases, including projects with a large and established codebase.
- Built and maintained reusable UI components and worked with shared component structures to improve consistency across the application.
- Collaborated with backend developers to synchronize frontend and backend work and ensure smooth data flow.

EDUCATION

IT School GoIT

May 2023 – Oct 2023

Full-Stack Developer

College of the National Pharmaceutical University in Kharkiv

2016-2019

Bachelor's degree of Pharmacy
